# Call of Papers

## 19th National Graduate Students' Environmental Forum

The 19th National Graduate Students' Environmental Forum will be held on May ,2024, at Tongji University (Shanghai, China).

### About the forum

The National Graduate Student' Environmental Forum is an academic exchange meeting for graduate students sponsored by the school of environmental science and engineering, Tongji University. The 18th National Graduate Student' Environmental Forum is in progress. The theme of this forum is: *Innovate green development and work together to dream of the future with carbon.*

The Organizing Committee of the forum sincerely invites Master & PhD students from all over the world working in environmental related fields to accelerate the innovation of global environmental governance!

Welcome to submit your papers and join this grand event!

### Forum Topics

<b>01 Treatment and Resource Utilization of Rainwater and Sewage</b>	
<b>W-1</b>	Treatment Technology of Urban Sewage and Industrial Wastewater
<b>W-2</b>	Biological treatment and Resource Utilization of Sludge (Water)
<b>W-3</b>	Management and Utilization Technology of Urban Stormwater
<b>W-4</b>	Nonpoint Source Pollution and Urban Drainage System
<b>W-5</b>	Simulation and Control of Environmental Pollution

<b>02 Drinking Water Treatment and Water Source Protection</b>	
<b>Y-1</b>	Control of Surface Water Pollution
<b>Y-2</b>	Theory and Technology of Drinking Water Treatment
<b>Y-3</b>	Advanced Treatment Technology of Drinking Water
<b>Y-4</b>	Drinking Water Safety and Disinfection Byproducts
<b>Y-5</b>	Membrane Separation Technology for Drinking Water
<b>Y-6</b>	Monitoring Methods of Aquatic Environment Quality

<b>03 Treatment and Disposal of Solid Waste</b>	
<b>G-1</b>	Treatment Technology of Domestic Waste
<b>G-2</b>	Treatment and Reuse of Sludge
<b>G-3</b>	Biological Treatment and Resource Utilization of Organic Waste

<b>G-4</b>	Treatment, Disposal and Resource Utilization of Industrial and Hazardous Wastes
<b>G-5</b>	Kinetics and Simulation of Solid Waste Treatment

<b>04 Air Pollution Control</b>	
<b>K-1</b>	Climate Change
<b>K-2</b>	Air Pollution Control
<b>K-3</b>	Chemical Reaction Kinetic of Atmosphere
<b>K-4</b>	Atmospheric Sounding and Air Pollution Meteorology
<b>K-5</b>	Atmospheric Pollution Dispersion Model and Application

<b>05 Development and Application of Environmental Materials</b>	
<b>H-1</b>	Development and Application of Photocatalytic/Electrocatalytic Materials
<b>H-2</b>	Design, Synthesis and Characterization of Environmental Nanomaterials
<b>H-3</b>	Development and Application of Other Environmental Protection Materials

<b>06 Technological Innovation and Interdisciplinary Integration under the Background of “Carbon Peaking &amp; Neutrality”</b>	
<b>Q-1</b>	Technological Innovation under the Background of “ Carbon Peaking & Neutrality”
<b>Q-2</b>	Interdisciplinary Integration under the Background of “ Carbon Peaking & Neutrality”
<b>Q-3</b>	Other Environmental Research in related to “ Carbon Peaking & Neutrality”

### Key Dates

- 1 Beginning of manuscript submission** February 22nd, 2024
- 2 Deadline of manuscript submission** March 15th, 2024
- 3 Forum dates:** May , 2024

### Notice

**1.Participants** Master's students & Doctoral students from universities.

**2.Conference Fee** This conference will not charge authors any registration fee, page fee or contribution fee. Part of the accommodation and transportation expenses of participants from universities outside Shanghai can be reimbursed.

### 3.Awards

**Excellent oral presentations. It includes:**

Grand prize 1 winner; 4800 CNY

First prize 6 winners; 2300 CNY

Second prize 12 winners;; 1050 CNY

Third prize 24 winners;; 500 CNY

**Excellent posters. It includes:**

Best Poster Award 4 winners; 500 CNY

Excellent Posters Award 16 winners; 300 CNY

**Submission**

**Online** <https://www.saikr.com/vse/tjeforum/2024>

**Deadline of paper submission:** March 15th, 2024

**Please follow up our official Website/Wechat account for any updates.**

**Submission requirements**

1. The number of words in the main body of the manuscript should be less than 6000 words and no more than 15 pages. The content of the article conforms to the theme of the forum, and the specific format of manuscript is shown in the "Submission Format Requirements".

2. The manuscripts will be initially reviewed by the expert group, and the organizing committee of the forum will inform the excellent authors of the papers to prepare for the follow-up matters through the website, e-mail or telephone.

3. Authors must ensure that no employment notice is received from the official journal at the time of submission. The authors of manuscripts shall be deemed to agree with this article once submitted to this forum.

4. The proceedings of the 18th National Graduate Environmental Forum in 2024 will only be used for academic communication among participants, and have no official issue number, which does not affect the authors' submission to academic journals. The forum adheres to the originality and innovation of academic research and any plagiarism is strictly forbidden!

5. The forum will be held in Tongji University in the form of on-site exchange. Those who fail to participate in the on-site communication will be deemed as giving up the award-winning qualification.

6. In order to encourage technological innovation and interdisciplinary integration in the field of environment, the theme of "technological innovation and interdisciplinary integration in the context of 'Carbon Peaking and Neutrality' " is added to the solicitation of contributions in this forum. Economic, management, energy and other environmental research fields in line with the concept of " Carbon Peaking and Neutrality " are also welcome.

7. In order to encourage everyone to contribute actively and pay attention to the quality of articles, the selection of cover article is proposed for the first time in this forum. If the submitted paper has

outstanding performance in strong innovation, concise language and exquisite pictures, it may be voted by the judges and experts as the cover article of the proceedings of this Environmental Forum.

# Oxidative Removal of Bisphenol A by Permanganate: Kinetics, Pathways and Influences of Co-existing Chemicals

Zhang Jxx<sup>\*1</sup>, Guan Xiaohx<sup>2</sup>

<sup>1</sup>State Key Lab of Urban Water Resource and Environment, Harbin Institute of Technology, Harbin; <sup>2</sup>College of Environmental Science and Engineering, Tongji University, Shanghai

**Abstract:** The decomposition of bisphenol A (BPA), a well-known endocrine disruptor agent widely detected in surface waters, in aqueous solution by permanganate was investigated.....

**Keywords:** Bisphenol A; Permanganate; Kinetics; Intermediate products; Pathways

## 1 Introduction

Endocrine disrupting chemicals (EDCs) can mimic the biological activity of natural hormones, occupy (but not active) the hormone receptors, or interfere the transport and metabolic processes of natural hormones<sup>[1]</sup>.

## 2 Experimental section

### 2.1 Reagents and chemicals

BPA of 99% purity and KMnO<sub>4</sub>.....

Fig.1 The...

Table 1 Rate constants of BPA degradation with permanganate

[Mn(VII)] (μM)	[BPA] (μM)	pH (±0.1)	T (°C)	k <sub>obs</sub> (s <sup>-1</sup> )	R <sup>2</sup>
25	5	7.0	20	0.72	0.998

Zhang Jxx( 1998 ) a female master who majors in wastewater treatment comes from Shanghai.
